-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

***Claim Rejections - 35 USC § 112***

1. Claims 1-8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 1, there is lack of antecedent basis for "the analyzer measurement cell" and "the respective walls of the measurement cell". It is unclear whether the cell is a required element of the claimed device. In claim 7, there is lack of antecedent basis for "the flow aperture of the top part of the second chamber".

***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-4 are rejected under 35 U.S.C. 102(b) as being anticipated by Hall et al. (US 4,021,021). Regarding claim 1, Hall discloses a device comprising elements (4, 15 and/or 8) for feeding, elements (16, 17) for removing and discharging; and a narrowing chamber (3) including essentially parallel walls (see Fig. 1). Regarding claims 2 and 4, there is a nozzle (the end of 15). Regarding claim 3, conduit (8) is symmetrically installed (see Fig. 1).

***Claim Rejections - 35 USC § 103***

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 5-8 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hall et al. (US 4,021,021). The device of Hall was discussed above. A second chamber is not disclosed. See *In re Harza*, 274 F.2d 669, 124 USPQ 378 (CCPA 1960) and *St. Regis Paper Co. v. Bemis Co.*, 193 USPQ 8 (7<sup>th</sup> Cir. 1977).

### ***Conclusion***

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
